

Snake Trio Working Contract

Complete this sheet together before anyone edits Python. Confirm roles, GitHub access, review rules, L1 boundaries, and recovery rules.

MEMBER 1 · DRIVER	MEMBER 2 · NAVIGATOR	MEMBER 3 · TESTER / RECORDER
Name: _____ Types only the agreed small change.	Name: _____ Reads the contract and protects scope.	Name: _____ Runs tests and preserves evidence.

Team name	
Private GitHub repository	
Communication / response	
Decision	Our explicit agreement
Communication	Where will we talk, and how quickly will we reply? _____
Role rotation	Rotate Driver, Navigator, Tester/Recorder after each completed TODO. _____
GitHub merge gate	One peer review + green public/student tests before merge. _____
Disagreement	Restate the contract, write one test, compare evidence, then ask a TA. _____
Stop-and-ask	Ask after 15 focused minutes without a new observed fact; ask immediately for setup/access. _____
Absence or delay	How will we notify the trio and hand off unfinished work? _____
Individual proof	Each member explains one contract, one test, and one GitHub decision. _____
AI L1 · ALLOWED	AI L1 · NOT ALLOWED
Explanations, hints, counterexamples, test ideas, traceback reading. Added rule: _____	Final bodies, silent copying, invented evidence, impersonation. Added rule: _____

Gate	Driver	Navigator	Tester / Recorder
Setup + baseline			
TODO 1			
TODO 2			
TODO 3			
TODO 4			
Tests + debug			
Playable demo			
Revision rule	We will revise this contract openly when a rule does not work. Revision: _____		
Member 1 signature / date	Member 2 signature / date	Member 3 signature / date
